This serves to acknowledge receipt of your grievance to the assigned Grievance Officer. The response is as follows.

Inmate Name:	Zamichieli	Inmate Number:	LW2870

Response:	Frivolous:		
<p>I have received your grievance dated 3/30/18 and numbered 729127. Two extensions were granted to reply to this grievance and were necessary due to the time it took to assess the situation.</p> <p>In your grievance, you contend that you received inadequate medical care from an incident related to you self inflicting injury to your head by banging it on a plexiglass window. In addition, it is noted that SCIH staff utilized OC spray on that date due to your failure to comply with orders. On that date, Ashley Whitesel-Madru, LPN responded to the secure search area in the DTU and she proceeded to flush out both of your eyes. It is noted that this entire event was video recorded and has been reviewed by CHCA P. Price. A review of the videotape evidence and your medical record show no records of seizure activity, as you stated. I do, however, note that based on the injury that is visible on the video, additional actions may have been indicated. As a result of this incident, a complete review of your medical file has occurred and it is noted that you have been seen by SCIH Medical Department numerous times since this incident. Specifically, you were seen by K. King, PA-C on 3/30/18 but her assessment required no additional treatment other than what was already previously prescribed and a follow up on PA Line in five days. You were seen again on 4/3/18 by PA-C Gessel who did order xrays and PA Line in one week. The xrays were within normal limits. Contrary to your inference, your medical concerns were addressed.</p> <p>Mr. Zamichieli, it is noted that multiple times, including several days prior to the incident in question, you also intentionally inflicted injury upon yourself by banging your head against other objects. As a corrections professional, I strongly encourage you to utilize the resources that are available to you including, medical, correctional and psychology staff. Additionally, it is noted that Certified Peer Specialists are available on all three shifts as a positive potential resource for you. I also note that you make vague PREA allegations in this grievance and you are referred to Lt. Maxwell if you wish to file a PREA complaint as a result of this incident.</p> <p>In summary, I will uphold in part and deny in part your grievance with the recommendations outlined above. Your grievance is denied.</p> <p><i>egreen</i></p>

Response:	Frivolous		
<p>In reviewing your grievance and appeal, I note that your concern with your health care was appropriately addressed by Deputy Walters. In your appeal, you state the initial grievance response admitted to prolonging your health care since the incident happened 3-21-18 and you were not given care until 3-30-18. You state you needed care on the date of the incident. In his response to your initial grievance, Deputy Walters explains LPN Whitesel-Madru saw you on 3-21-18 to flush your eyes after a use of OC. Before responding to this grievance, a complete review of your medical record was done after reviewing the video that showed your injury. It is true you were not seen until 3-30-18 by PA King who determined that no additional treatment was needed other than a five day follow up. On 4-3-18, PA Gessel ordered x-rays which showed normal results. Deputy Walters upheld your grievance in part because treatment was delayed. Your grievance was denied in part because the delay caused you no harm. In addition, you are well aware of the process to request sick call, and you could have signed up and been seen sooner than 3-30-18. I concur with Deputy Walters' response. Camera footage has been preserved, and your request for compensation is denied.</p>

RE: Grievance #729930
ZAMICHIELI, Lamont LW2870

This is a review of Grievance #729930 on Lamont Zamichieli LW2870.

Inmate Zamichieli has submitted a final grievance appeal, in which he continues to assert that he was inappropriately discharged from the POC, not provided adequate property, forced to sleep on the top bunk and denied medical and mental health treatment. He adds no additional information to consider.

This reviewer finds that this grievance has been satisfactorily reviewed and answered at the previous levels. Previous responses indicate that Mr. Zamichieli is indeed being offered multiple contacts with staff to assist with his mental health concerns. He has had access to medical providers. There was no evidence of any discrimination because of race.

This grievance is found to be without merit. No relief is granted.

This serves to acknowledge receipt of your grievance to the assigned Grievance Officer. The response is as follows.

Inmate Name:	Zamichieli	Inmate Number:	LW2870

<i>It is the decision of this grievance officer to uphold or deny the inmate's initial grievance. This response will include a brief rationale, summarize the conclusion, any action taken to resolve the issue(s) raised in the grievance and, relief sought.</i>			
Response:	Frivolous		
<p>I have received your lengthy grievance in which you allege that you were denied medical and mental health treatment because lack of space, race, medical conditions, and that you were denied basic needs of life.</p> <p>I have investigated your claims, spoken to staff, and researched your case. On 3/19/18, you attempted to jump from the 2nd tier of B quad when you were returning from PRT. Then you were placed in the DTU strip cage where you started to bang your head off the walls. You were placed in the POC after an Other Report was written on you. When you were released from OBS you were placed on close watch for 3 days. You were restricted to smock, blanket and slides only while you were on close watch. Cell GC1016 that you referred to in your grievance does not have a metal bunk, it has a plastic bed and you were the only inmate in that cell. You chose to sleep on the top bunk; the DTU staff or any other staff member did not force you to sleep on the top bunk. You did that by your own choosing. You were not denied any treatment medical or mental health due to your race, or any other condition you claim to have. You received the same treatment that all inmates receive, when you request medical or mental health treatment you receive it. Prior to you being placed in POC, you were attending the majority of your structured out of cell activities. After you were released from close watch, you have been refusing to go to any of the offered out of cell activities. Upon reviewing your ICAR, I see notations from Mr. Diehl on a regular basis; you are not being refused any services you just refuse to take advantage of what is offered. You constantly ask for a time cut or to just be transferred to another jail but you refuse to work with PRC to get a time cut. To sum this up you are not being denied any type of treatment nor are you being treated any different from the other inmates in the DTU. Nobody forced you to sleep on the top bunk when you were housed in GC1016. Staff did not put you in a cell that had feces on the wall or was an unsafe cell.</p> <p>For the above reasons this grievance and all relief sought is denied:</p> <p><i>egreen</i></p>

INSTRUCTIONS: *I wasn't yet cleared by Psychiatrist to be released from POC to DTU. Not screened properly. Relief: 250,000 Relief: Transfer to Doc facility in Kelleysburg. 2nd appeal at # 729930*

1. Refer to the DC-ADM 804 for procedures on the inmate grievance system.
2. State your grievance in Block A in a brief and understandable manner.
3. List in Block B any action you may have taken to resolve this matter. Be sure to include the identity of staff members you have contacted.

A. Provide a brief, clear statement of your grievance. Additional paper may be used, maximum two pages (one DC-804 form and one one-sided 8 1/2" x 11" page). State all relief that you are seeking.

Appeal # 729930 to facility manager and presents the following further facts to support my claims as to why relief should be granted as requested in my favor. The first appeal submitted was perhaps so belittled, dismissed, by employers but here's another just in case to meet deadline. (1) After Return from POC, however I never received the "Other Report" with by staff (2) cameras will show upon return on 3/21/18, I was first housed in cell 0TU 61016 with Blue clothing pants/shirt on with mattress, but was taken from me in strip cage after head bang on wall metal Bunk, Glass etc due to feeling depressed hopeless suicidal (3) I wasn't restricted to smock, blanket and slides until after indicating suicidal behavior again. cameras will show I was housed in cell 61016 in smock only after Blues was taken from me in ATU strip cage. Cell 61016 does so have a cold metal Bunk frame, similar material, it's not plastic nor fiberglass (4) I was forced threatened manipulated by employers, DM officers etc to sleep on top Bunk or on floor. (5) I followed their orders and sleep on top Bunk in the cell on the first night but fell off after having seizure epilepsy through the night, cameras verify. (6) The multiple days after, I had to sleep on the floor, which was the only other option available to me by employees. (7) I chose to sleep on floor instead on top Bunk which was only option also in initial review response Re grievance officer stated that there was no feces on wall in unsafe cell. Employees didn't test the substances/matters etc on the wall floor toilet etc. There was visible blood stains urine/fecal matter stains and scent on the wall floor. The Red stains were not juices etc. The Brown stains smeared wasn't dirt, was it. (8) Across Diet on Feces, Pet either one of those proves that the cell I was housed in was dirty/unsafe, unclean, for the weeks I was housed there. This was to punish me for showing symptoms of my mental health qualified disabilities. Punish instead of treating me. It was maliciously planned by employ. in initial grievance to harm me because of my self injurious behavior and I was discriminated against because of seizure epilepsy disorder due to lack of Bedspace cells in POC and DTU. (9) I was told by Landricks, Walters causes that I take up unnecessary Bedspace in DTU because of long term DC status.

Your grievance has been received and will be processed in accordance with DC-ADM 804. *Other inmates deserves be*

This response will include a brief rationale summarizing the conclusion and any action taken to resolve the issue(s) raised in the grievance and your appeal and relief sought.			
Response:			
<p><i>Frivolous</i></p> <p>In reviewing your grievance and appeal, I note that your concern with lack of treatment was appropriately addressed by Deputy Walters. In your appeal, you explain your version of the circumstances resulting in you banging your head while in the DTU strip cage. You also complain about the condition of your cell. In his response to your initial grievance, Deputy Walters found you were not denied medical or mental health treatment. He also found no evidence that you were discriminated against because of your race or that staff put you in a dirty or unsafe cell. You were provided all items permitted while on close watch. I must agree your claims have no merit.</p> <p>In closing, I can only reiterate that I uphold the response provided by the grievance officer. Your grievance is found to be without merit.</p>

1. Refer to the DC-ADM 804 for procedures on the inmate grievance system. *Relief: Release to General Population*
2. State your grievance in Block A in a brief and understandable manner. *Relief: Release to General Population*

A. Provide a brief, clear statement of your grievance. Additional paper may be used, maximum two pages (one DC-804 form and one one-sided 8 1/2" x 11" page). State all relief that you are seeking.

On about 4/10/18, 4/11/18 or 4/12/18 Pss Diehl saw me for TRP, he said it's a change of status, tested for what, he took he took and said CAMP cousins she wants to see me first before she discuss me my "Serious" red color that she discussed with me on 3/19/18. Pss Diehl also stated that I shouldn't be in DTR or DC status for over a year, and my year mark being in DC as DC status of Huntingdon is approaching so CAMP cousins wants to change my status and attempt to take my D code stability as she been plotting on for months because of my go on exams and lawsuits. I discussed the possibility of Prisoner Specialized Program transfer with Diehl and other issues of me needing my meds back on. He said CAMP cousins will see you for PRT on Monday 4/16/18, and I should bring it up to him her and Goss. On 4/16/18, I was at PRT and CAMP cousins said Diehl evaluated me so they could take my D code and put me into exile at the end of the session. I was manipulated into signing a TRP form that Diehl had what I discussed. I signed it because I was not being in TRP state of mind because I'm not on my medication because CAMP cousins I contacted it a month ago. I went to tell what I signed for until after I signed it. CAMP cousins said now you will not be a D code anymore. You won't go to Population or receive handcuffs privileges or you expect and you won't be transferred to another facility or specialized program. You are going to be in PRT. So now wearing orange jumpsuit instead of blue on 4/17/18 I was taken to C-Banks courtroom. It's been a year I been in DTR or DC status and no progress made on Set Huntingdon, so CAMP cousins will justify it by putting you on PRC or PRT and take your D code because Walters and Brumbaugh will not transfer me to another facility, will not release me to General Population or give you handcuffs. So instead so PRC don't have to consider anything privileges handcuffs to go to go to time etc because they know it's been over a year in DTR here at Huntingdon, PRT or PRC. Both never give me copy of TRP or PRC brochures etc to let me know my status and what my plan to do with me, from transfer. Their words don't have action to them.

B. List actions taken and staff you have contacted, before submitting this grievance. *See Huntingdon PRC.*

Appeal Grievance # 732590 to Final Review Level. There's NO

grievances or available appeal forms on the DTL at SCI Huntingdon.

Officers said none available for past 3 weeks now denied access

to grievances, prevented from exercising first amendment on numerous other

issues. I present following facts on appeal to central office.

① I BEEN housed, in SCI Huntingdon DTL on (DC) DISPLACING custody

status since consecutive ongoing since 4/18/17. It's BEEN well

over a year on same status under harsh isolation conditions. ISSUE

IS ongoing, as you can see in records I'm still housed in Huntingdon's SCI

DTL as of Date 6/27/18. NOTHING CAN BAR THE ACTION/GRIEVANCE

or say it's unlikely because issue is ongoing, not meet.

② I had to wait until after a year mark to raise claim because

a year on DC sanction is the maximum time a DTL (SMT) serious

mentally ill inmate "D" roster mental health code rating inmate could

be on DC sanction in DTL isolation being denied/delayed appropriate

Response: (This Section for Staff Response Only) medical/mental health care under

harsh conditions according to State/Federal Law also PA DOC Policy

and agreement of settlement contract John E Wetzel agreed on

when sued by Disability Rights Network and numerous other lawyers

on inmates behalf, immediate relief.

③ This cheap agreement contract is being violated/breached by PA DOC

SCI Huntingdon and its employees all in initial grievance began

this issue. I'm deteriorating degenerating mentally, physically and

psychological causing extreme pain suffering suicidal thoughts

and attempts because staff deliberate indifferent to serious medical

needs violating 8th amendment cruel unusual punishment in many ways

To DC-14 CAR only ☐ To DC-14 CAR and DC-15 IRS ☐

④ Constant isolation in DTL at SCI Huntingdon where the facility

LACKS appropriate amount of qualified mental health staff.

IN DTL also there's NO psychiatrist full time in the facility

CRNP @ Jessica Cousins isn't a psychiatrist, therefore should

NOT be conducting PRT or doing psychiatrist duties such

Relief: Immediate transfer

2) ^{net of Immediate Transfer to another PA Dec facility Prisoners next 10 days Immediate release to population} ^{net of All Requested} ^{200,000 cash compensation Mental distress, Joint Achi. migraines, etc}
 Being denied medication serquel or any Brand of ~~serquel~~ medication treatment for Deep Depression, Schizoaffective Disorder, Anti Social Personality Disorder, etc, in The DTU constant isolation and lack of train staff dealing with mentally ill inmates is sign of deliberate indifference. When I haven't spoken or evaluated by "Psychiatrist" in over 4 months as of 6/27/18 Denied treatment in DTU for over 7 year on Disiplinary custody (DC) status consecutive Isolation violates my 1st, 8th, 14th amendment Right of Constitution etc. Also violates The ADA title "II", "III", and "V" also Rehabilitation Act Section 504. 365 Days on DC sanction ^{Denied Medical is harsh!}
 I am diagnosed in conditions severe also psychiatric disabilities. I'm denied programming services, medical mental health treatment/attention in DTU at SCI Huntingdon for the past 14 months DC status consecutive because symptoms of disabilities. Staff LPM Goss, PSS Diehl, CRNP-causins, PRC/PRT members Walter, Spitzer, Brumbaugh discriminate against me. I have DC sanction time that exceeds ~~past~~ past my maximum Prison release sentence date. My max prison date is 8/22/19. I have DC sanction time until November-December 2019. Months past my Prison release date. Clear to see, I'm denying IM not on my mental health meds because on 3/19/18 CRNP-causins maliciously discontinued them, and want
 (none on one or as HPI) (G. Psychiatrist... which could alter my mood and help change behavior. Behavior could be proven because Notes meds as of date which could cause symptoms of psychiatric disabilities. I am not on my mental health meds because on 3/19/18 CRNP-causins maliciously discontinued them, and want
 (still in prison - 11-11-19) (meds for mental issues plus denied access by staff to Dr. due to change)
